

FIT – policy on the use of tandems

1. The tandems are available for use in connection with the aims and objectives of the FIT-Ability project.
2. Tandems will be available for loan to FIT members to assist them to become familiar with riding a tandem. For example - if a couple is considering purchasing a tandem and want to test their cycling compatibility etc.
3. Tandems can be used by FIT members to enter specific events such as the Hartley Challenge, Fitz's challenge. This includes the use for a training period leading up to an event.
4. Tandems can be lent to members of the Canberra cycling community when there is a defined need to use a tandem. For example - cyclists who have a position on a National tandem track team who require a tandem to undertake effective on-road training.
5. Priority for the use of the tandems .. FIT-Ability has first priority. If there is a need for all the bikes for FIT-Ability then they should be recalled from wherever else they might be.
6. Damage should be the responsibility of the borrower for minor damage. In the case of major damage, the borrower is responsible for any excess on the insurance + nominal fee to cover increase in insurance costs for the following year.
7. To arrange access to the trailer please contact FIT-Ability committee members.
